AMES Healthcare Records

AMES is an ideal partner to help develop and execute your EMR implementation plan. We can provide guidance and equipment at every step of your transition to an EMR, allowing you to function efficiently in the hybrid environment while still meeting your needs for physical organization and storage along the way.

Our decades of experience in providing products and services to a myriad of healthcare institutions make us leading experts in physical filing and storage. And we now offer multiple electronic products and services as well.

Contact us today at **800-676-3109** to find out how AMES can ease your transition to an EMR or download our free Hybrid Records Management White Paper at www.ameshealthcarerecords.com/hybrid.

If you are struggling at the keyboard with productivity and typos, please check out www.speedtype.com for our 15-day free trial option of SpeedType, The Extreme Word Expander for the Windows OS. For the medical transcription arena, you will need the Big Word List file of 13,000+ medical abbreviations already created for you. Just type the keyword inside any Windows application, even for EMR/EHR platforms, and SpeedType will do the rest of the work for you. Productivity enhancer, keystroke saver, and typo alleviator all in one!

integrating care. improving health.

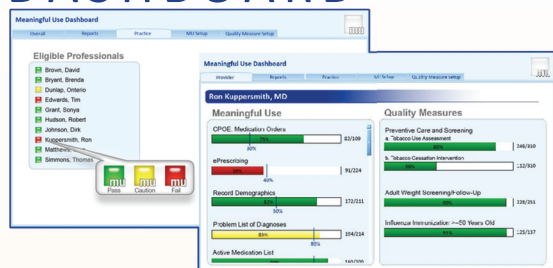

Informatics Corporation of America (ICA) delivers a comprehensive HIE solution to hospitals, IDNs, communities, and states. ICA is unmatched in its ability to deliver a cost-effective, proven solution that leverages complete data to aid decision making and improve patient outcomes.

ICA's CareAlign™ Solution provides a clinical intelligence

engine empowering HIEs to leverage existing core systems to exchange data to construct a longitudinal patient record. CareAlign™ also delivers provider/patient portals, secure messaging, disease management, interoperability, EHR-lite, and reporting tools.
